

### Apple IIGS

### #27: Graphics Image File Formats

Revised by: Matt Deatherage  
Written by: Steve Glass, Eagle Berns, Art Cabral,  
Pete McDonald & Rilla Reynolds

November 1988

October 1987

This Technical Note formerly described the file formats for Apple IIGS graphics image files. File formats are now documented in Apple II File Type Notes under corresponding file types and auxiliary types:

---

#### File Type \$C0

- Auxiliary Type \$0000 “PaintWorks” Packed Format
- Auxiliary Type \$0001 PackBytes Packed Format
- Auxiliary Type \$0002 “Apple Preferred” Packed Format

#### File Type \$C1

- Auxiliary Type \$0000 32K unpacked picture image
- Auxiliary Type \$0001 Unpacked QuickDraw II picture

#### Further Reference
